OHIO STATE
UNIVERSITY

INDEX TO VOLUME I., 1925.

☞ *Readers in search of a given subject will find it useful to bear in mind that the references are in several cases distributed under two or more separate but nearly synonymous headings—such, for instance, as Brain and Cerebral, Heart and Cardiac, Liver and Hepatic, Child and Infant, Goitre and Thyroid, Diabetes, Glycosuria and Sugar, Eye, Ophthalmic, and Vision, Lunacy and Mental Disease, Arsenobenzol and Salvarsan, &c., &c., and that regional headings are more frequently used than pathological. Institutions and Corporations with the right to the prefix Royal will be found under that prefix, with the exception of Hospitals, which will be found under that heading; and Medical Societies, which are separately indexed under Societies. All Universities are indexed under the word University. (A.)= Annotation, (C.) = Correspondence, (C.M.P.) = Conduct of Medical Practice. (N.I.) = New Inventions, (L.A.) = Leading Article, (M.L.) = Medico-legal, (M.T.T.) = Modern Technique in Treatment, (O.)= Obituary, (P.I.)= Parliamentary Intelligence, (R.)= Review, and (R. and A.R.)= Reports and Analytical Records.*

A Concordance of page numbers and dates of issue will be found at the end of the Index.
